

Operational Story Viewpoint

Domain	Aspect	Maturity
Operational	Context & Exchange	 released

Example

Purpose

The Operational Story Viewpoint

- identifies the Operational Stories and their relation to Operational Performers enabling operational storytelling
- illustrates the operational background from a Stakeholder's perspective
- serves as starting point to identify Stakeholders and/or context elements
- fosters the communication among different Stakeholders

Applicability

The Operational Story Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the problem or opportunity statement.

Stakeholder

Concern

- What are the operational scenarios(Operational Stories) relevant to the system?
- Which is the operational scenario, i.e., course of action, for the mission and the context in which the system of systems solution will exist?

Presentation

A use case diagram depicting model elements representing Operational Story(s) and Operational Performer(s) shall be used. In addition, an illustration (drawing, sketch, etc.) and/or a description in free text may provide a comprehensive understanding of the operational background.
