

# SAF User Documentation : System Functional Refinement Viewpoint

Domain	Aspect	Maturity
Functional	Process & Behavior	 proposed

## Example

 System-Functional-Refinement-Viewpoint-example.svg

## Purpose

The System Functional Refinement Viewpoint analyses decomposition of System Functions into System Partial Functions in order achieve understanding and agreement about the System functions sufficient to derive system requirements.

## Applicability

The System Functional Refinement Viewpoint supports the "Define System Requirements" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§4.3]. The System Functional Refinement Viewpoint contributes to the System Function definition.

## Stakeholder

- [System Architect](#)

## Concern

- How are the system functions decomposed into sub-functions ?
- What is the breakdown of functions into sub-functions?

## Presentation

Activity Diagram featuring System Partial Functions, functional exchange between partial functions. There are explicetely no Swimlanes and no allocations to structure.

# Profile Model Reference

---

The following Stereotypes / Model Elements are used in the Viewpoint:
