

# System Functional Breakdown Viewpoint

Domain: Functional Aspect: Structure

## Example

## Purpose

The System Functional Breakdown Viewpoint defines the functional hierarchy of the SOI beginning with identified System Function(s) further down to decomposed partial Function(s). The reuse of partial Function(s) over Function Trees of the SOI is demonstrated.

## Applicability

The System Functional Breakdown Viewpoint supports the "System Requirements Definition Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§4.3] and contributes to the System Function Definition. Note:

## Stakeholder

---

- [Acquirer](#)
- [Customer](#)
- [System Architect](#)
- [User](#)

## Concern

---

- How are the system functions decomposed into sub-functions decomposed?
- Which functions will the system provide?
- What is the breakdown of functions into sub-functions?
- What are the Capabilities that are supported by the system?

## Presentation

---

The result of the [tbd] process is one or more block definition diagram(s) (BDD) featuring [tbd].
