8	 provider				
20	 framework				
21	 SAF Developer <input type="checkbox"/> false		The SAF Developer is a group or an	=====	I need an overview over the viewpoints available to identify possible gaps.
22	 SAF System model <input type="checkbox"/> false		The SAF System Model User is a group or	=====	I want to know which viewpoints can possibly satisfy my information needs.
23	 SAF MBSE approach <input type="checkbox"/> false		The SAF MBSE approach planner is a	=====	I need to know which viewpoints are stable to assess the risk using them.

### Purpose

The Stakeholder Viewpoint provides definitions for Stakeholders having an interest in SAF Viewpoints. The Interest is formulated using Concerns.

### Applicability

The Viewpoint supports the definition of "Stakeholders and concerns", and "Specification of an architecture description framework" as defined in ISO41010:2022

### Presentation

A Block Definition Diagram (BDD) featuring *SCM\_VPStakeholder* elements, and inheritance relationships if applicable.

A table featuring *SCM\_VPStakeholder* elements, their documentation, and the *SCM\_VPConcern* elements representing the concerns of the stakeholders regarding to SAF Viewpoints.

### Stakeholder

- SAF Developer
- SAF MBSE approach planer

## Concern

---

- [Which concerns are related to the frameworks stakeholders?](#)
- [Who are the Stakeholders of the frameworks viewpoints?](#)

## Profile Model Reference

---

The following Stereotypes / Model Elements are used in the Viewpoint:

- [SCM\\_ConcernRationale](#)
- [SCM\\_D2\\_STKD\\_Table](#)
- [SCM\\_VPConcern](#)
- [SCM\\_VPStakeholder](#)

## Input from other Viewpoints

---

### Required Viewpoints

*none*

### Recommended Viewpoints

*none*
