

# Physical Function Allocation Viewpoint

Domain	Aspect	Maturity
Physical	Mapping & Crossreference	 under construction

## Example

*none*

## Purpose

The Physical Function Allocation Viewpoint analyses the allocation of System Functions and System Partial Functions to the Physical SOI Elements.

## Applicability

The Physical Function Allocation Viewpoint supports the "System Architecture Definition process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 .

## Stakeholder

- [Hardware Developer](#)
- [Software Developer](#)
- [System Architect](#)

## Concern

- What is the allocation of functions to the physical architecture?
- Which functions and services need to be implemented in SW?
- Which functions need to be realized by HW?

## Presentation

A Physical Function Allocation Matrix featuring

- the call behavior action representing usage of System Functions
- Physical SOI Elements or Physical SOI
- a derived relationship

## Profile Model Reference
