## Example

#	Name	Applied Stereotype	Documentation	Process Refining	Process Performed BY	Process Contributing TO
1	Search and Rescue	SAF_OperationalStory [UseCase] TODO_Owner [Element]	This Story sets the context of the Air & Land rescue by illustrating the search and rescue operation at land involving a cat in distress. The Rochester Hills Fire Department responded to a fire at an eight-unit apartment building in the 3600 block of Galloway Court around 5:39 a.m. on Sunday, August 16th. Residents called 911 after hearing loud thundering and seeing bright lightning. The fire department believes lightning may have struck the building, causing the fire. Fire was spewing from the roof when firefighters arrived. It took crews one hour to control the fire and another hour to extinguish it. One ...			
2	Search and Rescue Process	SAF_OperationalProcess [Activity] SAF_OperationalStory [UseCase] TODO_Owner [Element]	Day trippers using a disposable barbecue started devastating forest fire that destroyed 480 acres of protected woodland killing thousands of creatures. More than 150 firefighters of the Rochester Hills Fire Department spent 48 hours battling the blaze which broke out on Monday lunchtime. Fire investigators have found the remains of two disposable barbecues amid the blackened landscape of Rochester Hills Forest.	Search and Rescue		
3	Fire Detection and Notification					
4	Fire Detection and Notification Process	SAF_OperationalProcess [Activity]		Fire Detection and Notification		
5	SAR Activity	HyperlinkOwner [Element]				
6	Send Distress Signal	SAF_OperationalProcess [Activity]			Person in Danger	
7	Receive Distress Signal	SAF_OperationalProcess [Activity]			Coordination Center	Distress Signal Monitoring
8	Monitor Health	SAF_OperationalProcess [Activity]			Coordination Center	Search
9	Find Victim	SAF_OperationalProcess [Activity]			Fire Truck	Search
10	Recover Victim	SAF_OperationalProcess [Activity]			Fire Truck	Rescue
11	Provide Medical Assistance	SAF_OperationalProcess [Activity]			Fire Truck	Medical Assistance
12	Provide Emergency Care	SAF_OperationalProcess [Activity]			Hospital	Medical Assistance
13	FDN Activity	HyperlinkOwner [Element]				
14	Cook (food) on a Barbecue	SAF_OperationalProcess [Activity]			Day Tripper	
15	Cause Fire Ignition of	SAF_OperationalProcess [Activity]			Fire	
16	Detect and Notify Fire	SAF_OperationalProcess [Activity]			Surveillance Center	Fire Event Management
17	Receive Fire Report	SAF_OperationalProcess [Activity]			Coordination Center	

## Purpose

The Operational Process Traceability Viewpoint describes the relationships of Operational Processes. The reasoning for Operational Processes from Operational Stories and their contribution to Capabilities is described. The assignment of Operational Processes to Operational Performers is captured.

## Applicability

The Operational Process Traceability Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the

definition of operational scenarios.

## Stakeholder

---

## Concern

---

- Show in a concise manner the relationships from operational process to operational story and to operational performer.

## Presentation

---

The relationships of Operational Process Activities to Operational Stories, and to Operational Performers are represented in a table.
