Example

#	Name	Applied Stereotype	Documentation	Capability Supporting	Capability Exhibited BY	Capability Enabled BY	Refining Stakeholder Requirement
1	Safeguard People & Protect Property and Resources	SAF_OperationalCapability [Class]	The Disaster Recovery Reform Act of 2018 (DRRA) - enacted after the devastation of the 2017 hurricane season and 2018 California wildfires - emphasizes the importance of capabilities-based planning. Specifically, DRRA requires Federal Emergency Management Agency (FEMA.gov) to "complete a national preparedness assessment of capability gaps at each level based on tiered, capability-specific performance objectives to enable prioritization of grant funding."				
2	SAR Capability	SAF_OperationalCapability [Class]					
3	Distress Signal Monitoring	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of observing or recording an activity or performance of people who are in danger or lost.	Search and Rescue	Coordination Center	Receive Distress Signal	
4	Search	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of looking for people who are in danger or lost.	Search and Rescue	Fire Truck	Find Victim	
5	Rescue	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of salvaging people who are in danger or lost.	Search and Rescue	Fire Truck	Recover Victim	
6	Medical Assistance	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of getting the right equipment and medicine to the right people.	Search and Rescue	Fire Truck	Provide Emergency Ca...	
7	FDN Capability	SAF_OperationalCapability [Class]					
8	Fire Sources early Detection	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of managing an effective surveillance network which allows to reduce the time between the ignition and the detection of the forest fire.	Fire Detection and Notification	Surveillance Center	Detect and Notify Fire	CPBLTY-11 Fire Detection
9	Fire Propagation Modeling	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of providing forest fire danger forecast for the coming hours.	Fire Detection and Notification	Surveillance Center	Detect and Notify Fire	CPBLTY-12 Fire Monitoring
10	Fire Event Management	SAF_OperationalCapability [Class]	This operational capability demonstrates that the enterprise has the power of supporting tasks and time-critical decision processes in forest fire fighting situations.	Fire Detection and Notification	Surveillance Center	Detect and Notify Fire	CPBLTY-16 Forest Fire Detecting and Monitoring

Purpose

The Operational Capability Mapping Viewpoint describes the relationships of Operational Capabilities. The reasoning for Operational Capabilities as support for Operational Stories and the contribution of Operational Processes to Capabilities are described. Operational Capabilities encoded in Stakeholder Requirements are identified.

Applicability

The Operational Capability Mapping Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the definition of Operational Capabilities.

Stakeholder

- Acquirer

- [Customer](#)
- [Portfolio Manager](#)
- [System Architect](#)

Concern

- Show in a concise manner the relationships from operational capability to operational story, to operational activity, and to operational performer.

Presentation

A tabular format listing the relationships of Operational Capabilities to Stakeholder Requirements, Operational Stories, and Operational Process Activities.

Profile Model Reference

The following Stereotypes / Model Elements are used in the Viewpoint:

- [SAF_OperationalCapability](#)
- [SAF_OperationalCapabilityComposition](#)
- [SAF_OperationalCapabilityDependency](#)
- [SAF_OperationalCapabilityGeneralization](#)
- [SAF_OperationalCapabilitySupport](#)
- [SAF_OperationalPerformer](#)
- [SAF_OperationalPerformerExhibit](#)
- [SAF_OperationalProcess](#)
- [SAF_OperationalProcessEnabling](#)
- [SAF_OperationalStory](#)
- [SAF_SOV08a_View](#)
- [SAF_StakeholderRequirement](#)
- [SAF_StakeholderRequirementRefinement](#)
