

SAF User Documentation : O1_OSTY Operational Story Viewpoint

Domain	Aspect	Maturity
Operational	Context & Exchange	 released

Example

Purpose

The Operational Story Viewpoint

- captures operational stories within operational contexts and their relation to operational performers, thus enables storytelling
- illustrates the operational background from the Stakeholder perspective
- serves as starting point to identify Stakeholders and/or context elements
- fosters the communication among different Stakeholders

Applicability

The Operational Story Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2023 [§2.3.5.1] and contributes to the problem or opportunity statement.

Presentation

A use case diagram featuring model elements representing operational stories, the context in they're taking place and operational performers involved. Note: Illustrations, drawings, sketches, etc., and/or descriptions in free text may provide a comprehensive understanding of the operational mission.

Stakeholder

- [Acquirer](#)
- [Customer](#)
- [System Architect](#)

Concern

- [Which is the operational scenario, i.e., course of action, for the mission and the context in which the system of systems solution will exist?](#)

Profile Model Reference

The following Stereotypes / Model Elements are used in the Viewpoint:

- Attribute "subject" of UseCase referencing SAF_OperationalContext
- [SAF_O1_OSTY](#)
- [SAF_OperationalContext](#)
- [SAF_OperationalPerformerActing](#)
- [SAF_OperationalPerformer](#)
- [SAF_OperationalSketch](#)
- [SAF_OperationalStory](#)
