

## Evidence Definition Viewpoint

Domain	Aspect	Maturity
Common	Structure	 under construction

### Example

*none*

### Purpose

The Evidence Pattern Viewpoint presents claims backed up by arguments that are supported by evidence, together with the possibility to counter such claims in a similar manner.

### Applicability

The Evidence Pattern Viewpoint supports the ability to present an evidence pattern, a structure of claims, arguments, and evidence, which is a common need in systems engineering. It applies equally to the establishment of traceability, definition of safety cases, and even the presentation of business cases.

### Stakeholder

### Concern

- How is a evidence-based claim supported?

### Presentation

A block definition diagram (BDD) featuring a claim-argument-evidence (C-A-E) pattern.
