

# Operational Story Viewpoint

Domain: [Operational](#) Aspect: [Context & Exchange](#)

## Example

## Purpose

The Operational Story Viewpoint

- identifies the Operational Story(s) and their relation to Operational Performer(s) enabling operational storytelling
- illustrates the operational background from a Stakeholder's perspective
- serves as starting point to identify Stakeholder(s) and/or context element(s)
- fosters the communication among different Stakeholder(s)

## Applicability

The Operational Story Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the problem or opportunity statement.

## Stakeholder

---

- [Acquirer](#)
- [System Architect](#)
- [User](#)

## Concern

---

- What are the operational scenarios(Operational Stories) relevant to the system?
- Which is the operational scenario, i.e., course of action, for the mission and the context in which the system of systems solution will exist?

## Presentation

---

A use case diagram depicting model elements representing Operational Story(s) and Operational Performer(s) shall be used. In addition, an illustration (drawing, sketch, etc.) and/or a description in free text may provide a comprehensive understanding of the operational background.
