

SAF User Documentation : O2_ODIK Operational Domain Item Kind Viewpoint

Domain	Aspect	Maturity
Operational	Taxonomy & Structure	 released

Example

Purpose

The Operational Domain Item Kind Viewpoint captures enterprise wide concepts and collects type definitions for any exchanged item of the Operational Domain. Its purpose is to define these item types and their

relationships.

Applicability

The Operational Domain Item Kind Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the problem or opportunity statement.

Presentation

A block definition diagram (BDD) featuring Operational Domain Item Kinds and their relationships.

A Table featuring Operational Domain Item Kinds, their relationships and their Documentation

Stakeholder

- [Acquirer](#)
- [Customer](#)
- [Regulation Authority](#)
