# **Operational Story Viewpoint**

Domain: Operational Aspect: Context

# **Example**

# **Purpose**

The Operational Story Viewpoint

- identifies the Operational Story(s) and their relation to Operational Performer(s) enabling operational storytelling
- illustrates the operational background from a Stakeholder's perspective
- serves as starting point to identify Stakeholder(s) and/or context element(s)
- fosters the communication among different Stakeholder(s)

# **Applicability**

The Operational Story Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] and contributes to the problem or opportunity statement. Note:

### Stakeholder

- Acquirer
- System Architect
- User

#### Concern

 Which is the Operational Story task accomplished by which operational entities in the Operational Context?

#### **Presentation**

A use case diagram depicting model elements representing Operational Story(s) and Operational Performer(s) shall be used. In addition, an illustration (drawing, sketch, etc.) and/or a description in free text may provide a comprehensive understanding of the operational background.
