

# SAF User Documentation : Operational Capability Viewpoint

Domain	Aspect	Maturity
Operational	Structure	released

### **Example**

# **Purpose**

The Operational Capability Viewpoint defines a taxonomy of Capabilities from a Stakeholder's perspective including composition, specialization, and dependency relationships between Operational Capabilities.

# **Applicability**

The Operational Capability Viewpoint supports the "Business or Mission Analysis Process" activities of the INCOSE SYSTEMS ENGINEERING HANDBOOK 2015 [§ 4.1] defining Capabilities at an operational level (e.g., business or mission profile, and operational scenarios). The Operational Capability Viewpoint contributes to the problem or opportunity statement.

#### Stakeholder

- Customer
- · Portfolio Manager

#### Concern

- What operational Capabilities are required for each phase and mode of operation?
- · What operational capabilities are defined?

#### **Presentation**

A block definition diagram (BDD) featuring Operational Capabilities, their composition, specialization, and dependency relationships.
